## Раздел 2. Чтение

Задание 3. Установите соответствие между текстами А–Г и заголовками 1–8. Занесите свои ответы в таблицу. Используйте каждую цифру только один раз. В задании один заголовок лишний.

- 1. Making you open-minded**
- 2. Travel without travelling**
- 3. Cheap and useful**
- 4. Not for every tourist**

- 5. Beneficial for career**
- 6. Ways to spend less**
- 7. For mind and body**
- 8. A different perception of travel**

**A.** More and more travellers are seeking a new kind of break. Wellness tourism is a trend taking the industry by storm. Apart from yoga and healthy diets, wellness tours also focus on meditation. Meditation is known for its multitude of benefits. Apart from improving your health and keeping you fit, meditation also focuses on your mood and helps you gain a more positive outlook on life. Vipassana Meditation, which means seeing things as they really are, is one of India's most ancient techniques of meditation.

**B.** You do not always need to exit your house to travel the world. Nowadays it is possible to open the street view and pretend that you are walking down unfamiliar paths and tourist places. This way, you can also avoid the crowds while taking in the beauty of the surroundings. There are a lot of museums across the world that offer virtual tours, either for free or for a small price.

Going to international museums physically might not be possible but learning about culture is something you can do from the comfort of your own home.

**C.** Travelling in the past was about adventure, discovery, exploration and domination. However, when you think about it, the term explorer has gone out of style. In today's stressed out world, we travel places to treat ourselves, find out who we really are and do those things that make us truly happy. In a way, people were born to travel. As nomadic tribes, people moved in search of food. Travel in the name of religion prompted pilgrims and missionaries to journey into foreign lands to spread their god's word with various success levels.

**D.** A person who engages with new ideas and cultures is more likely to hold different viewpoints on the same subject than someone who does not travel. Travel forces you to think about other cultures and ways of living. It replaces your old idea of reality with a new, more complex one. It is this process together with your brain's reaction to it that pushes you to change and grow in a unique way. Travelling makes a person more creative, more flexible and more emotionally stable. It is an opportunity to learn and grow.

**E.** If there is one thing that helps develop your adaptability, it is travelling. You are going to be pushed out of your comfort zone. Travelling helps you develop your soft skills. No matter what you plan to get out of travelling, your soft skills will develop. Soft skills are highly sought after by

employers. They include your leadership qualities and your ability to work in a team. The mix of people, social and professional skills, coupled with emotional and social intelligence is becoming highly valued in all spheres of our life.

**F.** Mountain climbing can be a very serious undertaking. The more prepared you are for the physical demands, the more you will enjoy the activity. If you are considering mountain climbing, even for just one adventure, you cannot just show up with your guidebook and gear. You need to spend some energy and time and get your body's physical system ready for the demands that climbing can put on you to help protect you from injury later on. Training for mountain climbing is an important process that should never be skipped.

**G.** When travelling on a budget, there are lots of ways to make your money last longer. Some places become more expensive during Christmas and New Year's, during summer and during spring breaks. If you avoid these times of year, you will find hotels that want to fill up their properties, tours that may have discount prices in order to draw visitors in the off-season and lower flight prices. Low season does not appeal to everyone. But for those who are happy to deal with alternate weather, it can be the perfect time to travel.

### Letniy Sad

Letniy Sad (The Summer Garden) is a park ensemble, a monument of landscape art of the 18th century. Letniy Sad is the oldest park in St. Petersburg. The park was founded by Peter I in 1704. The Tsar dreamed of his own Versailles and drew its original plan himself. He planned to create a regular, architectural park with accurate layout and straight paths. Prominent architects and gardeners took part in its creation. The park was supposed to become a place of relaxation, A\_\_\_\_\_. Letniy Sad is surrounded by water. Natural boundary of the park from the north and east are the Neva and Fontanka Rivers, B\_\_\_\_\_. Peter I brought sculptures from Italy for the park and was very proud of them. In the 18th century there were more than two hundred sculptures, C\_\_\_\_\_, or moved to suburban royal residences and the Hermitage. Now Letniy Sad is decorated with 90 sculptures — copies made of artificial marble. In May, 2012 Letniy Sad was opened after reconstruction. The reconstruction work had been going on for about three years, D\_\_\_\_\_ Letniy Sad as it was in the 18<sup>th</sup> century. Among the new items in Letniy Sad, there is the Archaeological Museum, E\_\_\_\_\_ during the restoration of the park. Visitors can take a tour of the park F\_\_\_\_\_ on Sundays.

### **Why you need to pick up a book again**

According to Pew Research Center findings from 2018, 24 percent of the population had not read a book in the past year. And for those that do read, the American Times Use Survey— conducted by the Bureau of Labor Statistics — found that Americans over the age of 15 spend only about sixteen minutes a day reading for personal development. However, one silver lining of the pandemic may be that we are reading more. In fact, in the past year, 35 percent of the population have been reading more than they had in previous years. You may say, books are not the only sources of written text or, more broadly, information in our lives. We tend to spend two hours and twenty-four minutes per day on social media. Interestingly, reading versus using social media have very different outcomes when it comes to our mental health. While many believe their mood will improve after checking their social media, many report that it actually worsens following a social media scroll. Yet, when people engage in reading — whether it is for self-help or for fun — reading has been shown to reduce stress. In fact, just six minutes of reading a day can reduce stress levels. Here are just a few ways that reading can benefit you.

Reading is a form of mindfulness. Because we are often multitasking (which puts a heavy cognitive load on our brains), we often experience greater brain fog, difficulty concentrating, and irritability. When you settle down into a book, you are brought into the here and now, where you can focus presently on the story. The key is to stick with it. Especially if you are not used to reading, it can feel really uncomfortable to lean in. However, tell yourself that you are going to read at least ten pages to start. Chances are, you will want to keep going by the time you hit page 10.

Reading can improve your emotional intelligence. Citing Christensen’s article from CNN Health, she includes a quote from Keith Oatley, a cognitive psychology professor emeritus at the University of Toronto, and an award-winning novelist. He stated, “Those who read fiction may understand people better than others. A work of fiction is a piece of consciousness that can pass from one mind to another, and that reader can make it their own.”

Thus, when we take the time to really listen to another perspective, we can build our empathy in a profound way. In fact, fiction may be even more potent at some point, as it really goes into deep character development, and we gain a better understanding of the “why” behind a character’s motives. Reading has all kinds of cognitive benefits. Not only has reading been shown to improve sleep, but readers are also shown to have improved concentration and demonstrate greater memory retention. So, if you have been feeling cloudy, reading may be the perfect thing to sharpen your ability to recall. Even better is if you take a highlighter or pen to the lines that stand out to you. Write in the margins and include follow-up questions for yourself to build off of the text. Add your ideas that arise when you are reading. This will help you deepen your critical thinking skills. And one of the best parts about reading a good book? You can always pass it along to someone who will enjoy it next. Surprise them with a package in the mail or drop it off on their doorstep. I frequently do this on my social media account, where I offer to ship the books I have read to my community. I find that people love it! This is a great way to ensure that your books are bringing joy to others, rather than just gathering dust.

### At the library

It was early morning. Jason stood in the library at Norwood House, 23 \_\_\_\_\_ up at the painting above the fireplace. What an extraordinary portrait it was, of a handsome man in the prime of his life. The great Horace Winton. His grandfather. His mother, Horace's eldest daughter, Laura, had always 24 \_\_\_\_\_ him that he would grow up to look like her father. She had been proved right. This painting had been finished just a short time before Horace's fortieth birthday, and in a few days' time, he himself would be forty years old. And he was the spitting 25 \_\_\_\_\_ of his grandfather; six foot four, broad of chest, with red-gold hair and blue eyes. He knew that if Horace Winton could step out of the portrait, come to stand next to him, they would look like twins, so close was their 26 \_\_\_\_\_. Jason Casey finally turned away and walked out onto the terrace, headed through the hanging gardens, making for the ruined stronghold. His mother had constantly taken him there as a child, explaining that it had been her father's favourite spot at Norwood, and 27 \_\_\_\_\_ hers. She had 28 \_\_\_\_\_ him up on Winton lore, and most of it had been about his grandfather. Jason knew so much about his grandfather and 29 \_\_\_\_\_ never meeting him in person.

Ice hockey has a long history. It started on frozen lakes and rivers of Canadian winters in the 19th century. Now the games are played at high-tech arenas before 20,000 fans and are shown on TV. Though the rules and equipment have changed through the sport's 128-year history, the spirit of the game remains the same. Hockey has always been a sport of speed and grace mixed with a certain amount of violence. <sup>[1]</sup><sub>[2]</sub> That combination has proven irresistible to fans for over a century. A crowd of 5,000 reportedly watched the first ever Stanley Cup competition in 1893. During the 2002/2003 season, attendance at national Hockey League games topped 20 million. The history of hockey holds more than just changing rules and regulations. A host of colourful characters, interesting traditions, and strange events mark hockey's timeline.
